

RETRACTABLE SCREENS

FOR MULTI-PANEL, SLIDING &
FOLDING GLASS WALL SYSTEMS

**WIDER, STRONGER AND CUSTOMIZED
TO YOUR LIFESTYLE**

Introducing the latest innovation from Phantom Screens - retractable wall screens for oversized door systems and large openings.

A RETRACTABLE SCREEN FOR MULTI-PANEL DOORS, SLIDING, STACKING & FOLDING GLASS WALL SYSTEMS

There is nothing like being able to leave your oversized door systems wide open to enjoy the breeze without letting in the bugs. Phantom's new retractable wall screens for oversized openings disappear out of sight when not in use. They feature customized stopping points along the track and an integrated quick-release thumb latch to provide easy in and out access.

FEATURES & BENEFITS

- Retracts horizontally and completely out of sight when not in use
- Covers doorways and openings up to 24 feet wide and 10 feet high
- Manually operated retractable screen
- Customizable stopping points along the track for easy in and out access
- Mesh completely secured in track to prevent blow-out in breezy conditions
- Thumb latch integrated in handles for quick release
- Variety of mesh options that offer insect and solar protection
- Stainless steel fasteners to prevent rusting in moist conditions
- Various threshold adaptors to integrate with virtually any type of doorway
- Professionally installed by factory trained installers
- Industry leading Limited Lifetime Warranty*
